

AJ'S STORY

I am doing this race to raise awareness about Kawasaki Disease (KD). Not many people know what it is or the warning signs. It will make a world of difference to me if I can spread awareness about KD so other people aren't shell shocked when or if their child ever gets diagnosed with KD.

Aj was 3 years old when he was diagnosed with Kawasaki Disease. He started out with the rash and swollen hands/feet than two days later the red eyes ,strawberry tongue, and fever. Within those three days there were several misdiagnoses such as allergic reaction, strep, and Fifth's Disease.

Something told me to get another opinion, so I brought him to an out of state hospital where they ran multiple tests. Since they couldn't officially diagnose him at that hospital due to no pediatric unit we were transferred to a children's hospital where they confirmed he had Kawasaki Disease and treated him with IVIG.

With the help of your sponsorship we can raise awareness to Kawasaki Disease. I know my son and I plus many other families with children who have KD will appreciate it from the bottom of our hearts.

WHY WE SPONSOR

Winston Churchill once said, "We make a living by what we get, but we make a life by what we give." Delta Disaster Services of Northern Colorado helps sponsor the Kickin' Kawasaki 5K because we believe in giving back to the very community which supports our business, the livelihoods of our staff and to help raise awareness for Kawasaki Disease.

Delta Disaster Services of Northern Colorado

The number one reason I sponsor is because I firmly believe in supporting the people that support me and my business.

You do that and I am grateful!! Second, my nephew was diagnosed with Kawasaki Disease when he was a baby. We know that we were just fortunate that his was diagnosed sooner and is blessed to have had no lingering problems.
