

## CHARLIE ROSE'S STORY

Charlie Rose was diagnosed with Kawasaki Disease in February of 2019.

We were incredibly fortunate to have caught this disease early and are forever grateful to the amazing team of professionals at Phoenix Children's Hospital. However, our daughter is quite rare in the fact that she didn't respond to the first two rounds of treatment and different measures had to be implemented. A three-day intensive steroid treatment is what finally broke her 104+ temperature and rapid heartbeat of over 200bpm.

We spent a total of eight emotionally exhausting days in the hospital with many unknowns. As a family, we thought we had endured the worst until later finding that Charlie had a medium sized aneurysm and additional dilation in her heart.

Currently, we have weekly appointments as we closely monitor her health and know we have a lifetime of follow-ups. We pray that things quickly normalize but know we are at risk.

Unfortunately, children are being misdiagnosed and/or our enduring a lifetime of heart disease. Through the Kawasaki Kids Foundation, we hope to bring awareness, education, and support to our community by sharing Charlie Rose's, our Incredi-Girl's, story. No child should have heart disease.

## WHY WE SPONSOR

Winston Churchill once said, "We make a living by what we get, but we make a life by what we give." Delta Disaster Services of Northern Colorado helps sponsor the Kickin' Kawasaki 5K because we believe in giving back to the very community which supports our business, the livelihoods of our staff and to help raise awareness for Kawasaki Disease.

*Delta Disaster Services of Northern Colorado*

The number one reason I sponsor is because I firmly believe in supporting the people that support me and my business. You do that and I am grateful!! Second, my nephew was diagnosed with Kawasaki Disease when he was a baby. We know that we were just fortunate that his was diagnosed sooner and is blessed to have had no lingering problems.
