

WILLEM'S STORY

We are organizing the race to raise awareness of Kawasaki Disease for both the community and healthcare professionals in Central Wisconsin.

Additionally, we wish to raise funds for a diagnostic test for the disease, along with an effective cure. Our four-year-old, Willem, was diagnosed with a rare form of the disease, called Kawasaki Shock Syndrome, in March 2019. He was on life support for 5 days while doctors and our family did not know if he would make for several days. We hope that no parent goes through this with their child as we still search for answers as to why it happened with ours.

Awareness and early diagnosis are essential to saving the hearts of children who are diagnosed with this rare disease. Your sponsorship will help fund awareness and research of Kawasaki disease.

WHY WE SPONSOR

Winston Churchill once said, "We make a living by what we get, but we make a life by what we give." Delta Disaster Services of Northern Colorado helps sponsor the Kickin' Kawasaki 5K because we believe in giving back to the very community which supports our business, the livelihoods of our staff and to help raise awareness for Kawasaki Disease.

Delta Disaster Services of Northern Colorado

The number one reason I sponsor is because I firmly believe in supporting the people that support me and my business. You do that and I am grateful!! Second, my nephew was diagnosed with Kawasaki Disease when he was a baby. We know that we were just fortunate that his was diagnosed sooner and is blessed to have had no lingering problems.
